Dear Dr. Henney,

I am writing to express my concern over the FDA's regulation of genetically engineered (GE) food, to ask that the agency's current policies be changed, and to support all the points in docket #00P-1211/CP1

please

☒ All GE Foods should be labeled so I am informed and have a choice.

☐ GE Foods should not be assumed to be "generally recognized as safe" and should have mandatory pre-market safety testing

☒ There should be a moratorium on GE Foods until long-term studies show they are safe for human health and the environment.

Commissioner Jane Henney

Docket No. 00P-1211/CP1

FDA Dockets Management Branch
(HFA-305)

5630 Fishers Lane, Room 1061

Rockville MD 20852

(Additional Personal Comments):

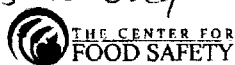

What I think that you should do or the sellers should do, is to stop selling what makes us sick, because that is the reason why people are dying. The other reason is that the little kids who are innocent are getting sick too, because the sellers put natural flavor, vitamins, candy, cookies, cake, ice cream and etc and its wrong.
